

Crane Application

KOPS + T Load Moment Indicator for tower crane

Features

Products:

- ~ Load Moment Indicator
- ~ Windspeed Indicator

- Measuring load by measuring the force in the hook hoisting wire rope, either in running wire rope using Dynamometer or using a load plate at the dead end of hoist wire rope.

Note: 1) System Available in Wired / Wireless Configuration
2) Data Logging available through LAN, WiFi, GPRS

Wide Range of Solution Offering

Factory Crane Solutions

EOT, Hoist, Gantry, Jib Crane, Forklifts

- ~ Load Indicator - Compact LCD Display
- ~ Load Indicator - Large LED Display
- ~ Overload Protection System
- ~ Wind Speed Indication System

Construction Crane Solutions

Mobile Telescopic, Lattice Crawler, Rough Terrain, Derricks, Truck Cranes, Pipe Layer Crane, Tower Cranes, Pick & Carry

- ~ Load Moment Indicator - Basic Display
- ~ Load Moment Indicator - Display with Tilt Indication
- ~ Load Moment Indicator - Color TFT Display
- ~ Over Moment Protection System
- ~ Tilt Indication System
- ~ Wind Speed Indication System

Marine Crane Solutions

Port Crane, Wharf Crane, Knuckle Boom Crane, Floating Vessels Crane, Oil Rig & Barge Pedestal Deck Crane

- ~ Load Moment Indicator
- ~ Wind Speed Indication System

Hazardous Area Crane Solutions

Zone-1 & Zone-2 Areas

- ~ Load Moment Indicator - IEC Certified

Railway Crane Solutions

Wagon Mounted & Accident Recovery Crane

- ~ Load Moment Indicator

Earth Moving Equipments

Excavators

- ~ Load Indication & Height Limitation System
- ~ Tilt Indication System
